

## Cully Launches New Website

*By Tamra D'Agostine*

After several months of hard work and planning, the Cully Association of Neighbors has finally launched their new website! With Shawn Busse of Kinesis Inc. and CAN Board Member Tamra D'Agostine working on the design, and Todd Coward of OakStand doing development, the website has a professional look and is easy to navigate. The site now offers several useful elements, including current news items, updates on liquor notices and land use, general CAN information, upcoming events and activities, helpful phone numbers, and more. There's even a place to send questions and comments to the Cully Board. The website is an informative tool and a great resource for Cully members, and we encourage everyone to take a look. You will find the new site at [www.cullyneighbors.org](http://www.cullyneighbors.org).
