Ms. Tervalon,

the Willard Neighborhood Association Steering Committee met last night and discussed the use of the safety vests that your department has. we felt that they could be a very good tool in making neighbors visible during nighttime activities.

we would like to request that 2 vests be donated to the WNA at this time. Marcia Levinson, a WNA Steering Committee member, will be picking up 2 vests for her use this morning and we are hoping that you can give her the 2 vests for our organization at that time.

from anecdotal evidence, we believe that more of our neighbors will be interested in these vests in the future. we hope that you are planning on re-ordering them when the current supply is exhausted as this is a very positive step the City can take in helping residents be safer on the streets.

Vincent Casalaina
President, Willard Neighborhood Assoc.
