

THAN

Tampa Homeowners, an Association of Neighborhoods

GUIDING PRINCIPLES

THAN works to promote, educate and empower neighborhoods in the City of Tampa.

THAN membership is open to all incorporated neighborhood associations in the City of Tampa. Groups in the process of organizing are invited to attend meetings and will be welcomed as members once they meet the definition of “an organized group”.

THAN brings neighborhood leaders together to learn of current and long-term issues, to seek solutions to problems and to learn how success can be achieved.

THAN represents city-wide neighborhood interests to government agencies, community and business groups and the media using the experience and expertise of its members.

THAN educates its members by sharing information, encouraging and facilitating communication between neighborhoods and between neighborhoods and the city and by working with the City to conduct workshops on issues that are pertinent to the interests and needs of its members.

THAN never inserts itself into issues among the residents of a neighborhood.

THAN is an all-volunteer registered non-profit group. None of its officers or staff receive compensation.

THAN asks only nominal dues from its members, only enough to maintain its organization.
