

Neighborhood Stabilization Program

The Middletown Community and Child Watch Group would like the community to be cognizant of NSP assistance being made available for prospective homeowners in New Castle County and the state of Delaware. The program provides affordable homes for all income levels and offers a real opportunity for persons to actually own their “dream house.” The related documents are posted on our Middletown Village Community and Child Watch website. Residents are encouraged to review the announcement and please let other prospective homeowners know about this offer also.
