

Beware of Home Alarm Scams

NNI was recently contacted by the Alarm Coordinators Office in the KCMO Police Department and advised that there are already alarm scammers hitting neighborhoods. Before you get caught up in a scam or just want some information on alarms before you buy one, check out the link below for more information. It is from the Federal Trade Commission's website.

The scammers have been preying on the elderly, telling them that their company is going out of business and they need to switch. Once the check is written, you will never see or hear from them again.
