Let us know!

---

## MISSION STATEMENT

The purpose of the Middle Village Neighborhood Association is to gather and organize residents for community-building, centered around issues relative to MVNA, to provide a communication toolset for neighbors to voice to local government and civic groups (and among each other), and to respectfully collaborate and empower measurable neighborhood improvement in order to deliver a thriving area in which to live, play, and work. We also strive to work in collaboration with other neighborhoods who desire similar outcomes.
