

Features of Neighborhood link

www.neighborhoodlink.com

Zip Code profiler- enables user to look up specific neighborhood demographics, schools and taps the user into the register sex offender data base.

Home Value Check- Allows the user to check the value of their home and any other home in the area.

Live interactive discussion board- user can share concerns or gain information about topics such as: crime, politics, environmental issues, even lost pets.

Neighborhood link has features such as:

1. Photo Gallery- post pictures of the events that go on in your neighborhood
2. Email blast- this feature allows you to send a custom email to all. Email Blast provides instant communication with members through simple-to-manage mailing lists.
3. Detailed Map- An editable and interactive map of your geographic boundaries provides useful information to visitors and potential new residents/neighbors.
4. Resident/Neighborhood Pages- All of your members, neighbors, or residents are provided a "Facebook" like profile that they can fill out with pictures and personal information
These kinds of social networking tools help build a thriving online community.
5. Events Calendar- Your events calendar allows you to post upcoming events like board meetings, social events, and reminder dates for things like dues payments. Events are automatically deleted after the event date. There is also a mini-calendar on the home page.
