

Meeting agenda, sewer committee 05.Aug.2009

- Letter from state (Ginny Torrez)
 - Ben's suggested responses on E-Coli and TSS
 - Reminded Ben that we ALWAYS want to be notified ASAP
 - Discussion of standard procedure for DMR sample submittal, reporting of results, etc
 - Begin writing a response letter
- Sludge Removal
 - Rescheduled to begin on 8/6, 2-3 days worth of effort to complete.
 - Contractor will probably run over the weekend, I will be out of town.
 - Urgent issue of a new valve between LS and Cell1
- Flowmeter at Riverside Farm
 - Why was it not possible to get it running?
 - Remind me again the argument against using it as intended?
 - Next Steps...discussion
- Personnel
 - Some help/coaching for several months, possibly from Wayne Ramey?
 - Salary discussion...is current salary adequate? Really?
 - Notification mechanism(s)?
- Later this year (after sludge removal and flowmeter correction):
 - Camera inspection of collection pipes (do we have any maps?)
 - Experiment with dechlorination (no testing until we get state approval)
- Mowing of outer acreage (outside the fence)
 - Previous contractor no longer interested, and difficult to pin down on pricing commitments
 - Mike D will take ownership of contracting this activity
