

What's the story behind the Bel Air logo?

As part of the neighborhood's efforts to build an identity, the Community Enhancement Committee commissioned a graphic artist to help design our logo. After much discussion, the committee decided on the 50's style lawn chair along with the green background and yellow lettering. Even the letter style is indicative of the 50's. It was felt that the colors and style reflect the unique 50's style of the homes in the neighborhood. We hope you agree!

How to get involved

Many new residents inquire about how they can become involved in helping to maintain and improve the neighborhood.

Our various committees would invite your participation. The committees normally meet once a month or as needed. No experience is required...we welcome your help!

Also, you may choose to serve on the Bel Air Neighborhood Association Board. Elections are held each May for two year terms for board members. Elections for Officers are held in June for one year terms.

Please contact any board member for more information about becoming involved in the neighborhood.

Light Rail

The closest light rail station is located at 19th Avenue and Camelback Road. The Park & Ride is located on the SE corner of this intersection.

www.valleymetro.org

Bus

An East/West bus route is available on Indian School Road and North/South routes are available on both 19th Avenue and 15th Avenue.

Look for your Bel Air Communicator newsletter for upcoming meetings and events. The Communicator is delivered to your door every other month.

WELCOME

On behalf of the Bel Air Neighborhood Association, we want to welcome you to the Bel Air neighborhood! Our neighborhood covers the area from Incian School Road north to the Grand Canal and between 15th and 19th Avenues. Bel Air is comprised of over 300 single family residences and a combination of approximately 150 rental units and business locations.

Brief History

Bel Air consists of three separate subdivisions - Kearnie Estates, Eugene Place and Bel Air. Most of the homes in the neighborhood were completed between 1949 and 1952 by the Porter Womack Construction Company. While the neighborhood is not a designated historic district, there are many unique homes in the neighborhood that reflect the architectural style of the time.

About the Association

The Bel Air Neighborhood Association (BANA) was formed in May 1995 by a group of residents. The purpose of BANA is to achieve and preserve

a safe, attractive and valued neighborhood with a sense of pride, responsibility and cooperative involvement. BANA is governed by a volunteer board elected by the residents. We are not a homeowner's association and there are no association dues. BANA keeps residents informed through a bi-monthly newsletter, quarterly general meetings and many activities throughout the year.

Public Schools
