Hi Dick,

Would you mind passing the following info on to the homeowners? We recently purchased a new electric pontoon boat from Fort Bend Boats, Dr. Larry Gonzales in Sugarland, TX for our place in Nebraska. Larry is a really up-front guy, easy to deal with and dependable. He also mentioned that he has parts for the earlier models of Eldebo and Escape Cruz as well as his new model. Since Johnson Outdoors had sold this business, the trail had sort of gone cold as to where we could buy either parts or a new boat, so we thought we would pass Larry's contact info on.
