

Home Energy Assessment

Energize Your Home and Get More Comfort and Savings.

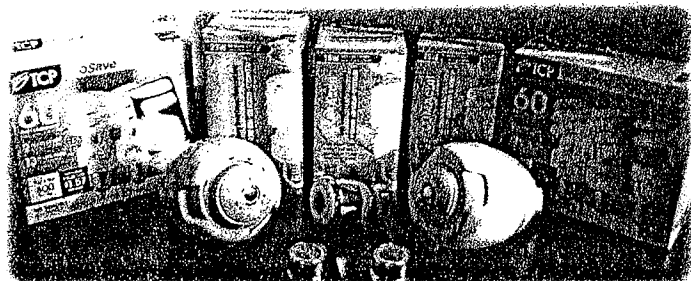

Residential Home Energy Assessments from Energizing Indiana are a smart approach to improve the comfort of your home. Home Energy Assessments can help you raise your home's performance, lower energy bills, improve in-home air quality and increase your home's value.

What is included in your Home Energy Assessment?

Energy Advisors will guide you step by step through the process to produce long-term, cost-effective energy savings by analyzing your energy use, recommending appropriate efficiency measures and by installing several low-cost energy-saving measures. Advisors will also assess the heating, ventilation and air-conditioning (HVAC) systems in your home to determine if they are operating efficiently. We also may inspect your home's air duct sealing, insulation levels and more to evaluate your home's energy consumption and heating and cooling efficiency.

The Home Every Assessments may include energy saving measures such as:

- Replacing traditional incandescent bulbs with efficient CFLs (limit 9)
- Install low-flow faucet aerators (limit 3)
- Install low-flow shower heads (limit 2)
- Water heater insulation wrap (on electric heaters only)

Once your home's energy assessment is complete, you will receive a comprehensive report detailing what can be done to start saving energy and make your home more comfortable. Many times a Residential Home Energy Assessment reveals that only simple and relatively low-cost improvements are necessary to achieve significant energy savings.

Eligibility Requirements:

- Single family homes owner occupied OR non-owner-occupied homes where occupants have the electric services in their name
- Duplexes, triplexes, and quads (condos up to 4 units, rented or owned)
- Homes ten (10) years or older
- Homes that have not had a utility-sponsored assessment in the last three (3) years.

Weatherization services are available for income-qualified homeowners through Energizing Indiana. Customers must meet income qualifications.

Community Outreach & Enrichment:

In an effort to energize our community, nonprofit organizations may enroll in our Community Outreach & Enrichment program. For every home enrolled through the nonprofit that completes the assessment, the nonprofit organization will receive \$25. **Contact your nonprofit organization to get involved.**

Please note, Energizing Indiana may periodically share your scheduling status with the participating organization.

Energize your home. Energize your community. **Energizing Indiana.**
