

A Message from the Kansas City Police Department:

As spring is here and kids are out playing more, it is time to begin watching our driving habits. For the next three weeks the Shoal Creek Patrol Division IMPACT Unit will be out conducting heavy enforcement in School Zones, Residential Areas and School Bus Stops. Ultimately we would love to gain voluntary compliance from the community and drivers, by getting them to drive the speed limit, stop at stop signs and follow the traffic laws. However, we will be issuing tickets and warnings where appropriate for violators. We want to get drivers to a point where they are driving safely and watching for children. The goal of this project is to protect the children, as well as, make the roadways safer. Our project is running 4/1/2014 - 4/18/2014. We along with Missouri Highway Patrol and hopefully Clay Co. Sheriff's Dept. will be out in force conducting enforcement actions during these dates.

On the other end of this, we encourage parents to make sure to emphasize the dangers that the streets and cars pose to their children, as well as, to make sure and remind parents to keep a tight eye on their kids while they are playing outside.

Thank you for your help,

*Sgt. David Loar
Shoal Creek Patrol
IMPACT Unit*
