

On Saturday's If you shop at Ardovino's Farmers' Market feel free to drop your electronic waste in the Keep El Paso Beautiful / EcoRecikla e-waste Gaylord container.

What's e-waste, you ask? PCs, flat screen monitors, plasma TVs, cell phones, power cords, fax machines, printers. Plus home appliances like VHS players, drills, blenders, hair dryers, curling irons, saws, modems, routers, mixers, food processors, clock radios, stereos, digital cameras. Pretty much everything you plug into electrical outlets. Sorry, no CRT TVs, CRT PC monitors, or refrigerators.

Last year KEPB and EcoRecikla teamed up to collect 10's of tons of e-waste and just about everything is recycled into something new again creating thousands of jobs in the process. Help us help someone find gainful employment to put food on their table.

So please take a look around your office, warehouse, or your home (especially the garage) and bring a box of e-waste to Ardovino's Farmers' Market. Then re-use the box to fill with all the cool stuff you'll buy from all the vendors at the market.

Please recycle 

We thank you.

Victor H. Valenzuela, Ph.D.
Executive Director, Keep El Paso Beautiful
