

WE'RE SERIOUS ABOUT **SAVING 36%**

MAKING THE IMPOSSIBLE, POSSIBLE

As part of the State of California's water conservation mandates, Coachella Valley Water District is required to reduce water use by 36%. In a collaborative effort to help conserve water during this historic drought and meet our conservation goal, CVWD is encouraging all customers to reduce water use by following the State's mandatory water use restrictions, implementing water saving methods, converting existing lawns to water-friendly landscaping, and replacing inefficient water fixtures with low-flow devices.

BY MAKING SOME OF THESE CHANGES TOGETHER, WE CAN HELP MEET OUR CONSERVATION TARGET.

MANDATORY RESTRICTIONS (exceptions for health, safety and sanitary needs)

- Do not irrigate outdoors within 48 hours of measurable rainfall
- All landscaping in front of newly constructed buildings must use only drip irrigation or micro-spray
- Overseeding is discouraged and will not be accommodated by increasing water budgets
- Water features and fountains that do not recirculate water are prohibited
- Repair broken sprinklers within 24 hours, fix leaks as soon as possible
- Do not cause runoff by overwatering
- Hose must be equipped with a shutoff nozzle to wash vehicles and windows
- Do not wash down driveways, patios or sidewalks

CVWD will continue to prioritize working with customers to quickly resolve violations. After a written warning, customers will be liable for fines on their bill starting at \$50. For a complete list of restrictions and recommendations, visit www.cvwd.org/CVsaving36.

REPORT WATER WASTE

Eliminating water waste is one of the most important things we can do to help save water. To report water waste, visit www.cvwd.org or call 888.398.5008.

NEW

WATERING SCHEDULE

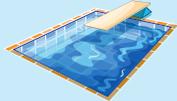

EFFECTIVE December 1, 2015 through March 31, 2016

HERE ARE SOME CHANGES THAT CVWD RECOMMENDS TO HELP YOU SAVE:

Set your irrigation controller to use 36% less water on grass

Invest in a pool cover to reduce evaporation, especially during summer
Don't drain or refill your pool

Water early in the morning or after the sun has gone down

Install a weather-based smart controller

Avoid planting spray-irrigated annual flower beds

WE WANT TO GIVE OUR CUSTOMERS THE TOOLS THEY NEED TO MEET THIS TARGET.

Rebates and incentives

1 Turf removal rebates for residents, businesses and golf courses

2 Free residential smart controllers

3 Efficient sprinkler nozzles

4 Free water conservation kits for your home

5 High-efficiency toilet rebates for residents and businesses

6 Free pre-rinse nozzles and water brooms for businesses
