*Effective as of 11/2/2011, and subject to inclement weather and other changes.

Green recycling carts are for yard debris; **Blue** recycling carts are for paper, cardboard, metal, and plastic bottles and tubs. Glass bottles and jars should be placed in the small green recycling bin; batteries should be placed in a clear plastic bag and this bag placed on top of the blue recycling cart on recycling dates. Motor oil can be saved in an old plastic milk jug (with the cap, of course!), then placed next to the blue recycling cart on recycling dates.

Pick-up days for garbage and recycling within the CHNA area are **normally on Thursdays** (this was effective November 7th, 2011) – **except** when **Thanksgiving, Christmas and New Year’s** fall on any weekday other than Friday, our scheduled pickup date will be **delayed by one day** (thus our pickups the week of Thanksgiving, Christmas and New Year’s in 2017-2018 will be on Fridays).

Garbage pickup may also be delayed due to severe weather (listen/watch news reports). If weather causes a one-day delay, your garbage will be picked up the next day; if it causes a 2-day delay, you should remove your refuse from the curb, and you may place twice the amount (at no extra charge) on the next week's scheduled pickup.

VMC 6.12.110(d) – “Each can or cart, including recycling bins and yard debris receptacles, shall be left at the curb for pickup **not more than twelve hours before** the scheduled pickup day and shall be removed from the curb in **not more than twelve hours after** the scheduled pickup day.”
