---

I know everyone is hopeful about opening the pool. I've heard opinions and read comments from many neighbors and board members. Legally we cannot open the pool at this time. If and when Clackamas County is allowed to apply for Phase 2, I'll call a special meeting of the board to debate and vote on the issue. Sadly, the trend in COVID-19 cases is going the wrong direction in USA, Oregon, Clackamas and in Lake Oswego.

Several board members are requesting a vote. But at this point, a vote is pointless because we cannot open. We already have a plan... we open the pool every year. We know how to do that. I've laid out a series of questions (sanitation, monitoring, etc.) that need to be addressed to deal with COVID-19. If someone wants to consider & document those issues, that would be fine. If, and when, the situations changes, we'll take up the debate and vote.

Funds budgeted this year but not spent on Pool Operations will be set aside for Pool Capital projects.

As board members and community leaders, I hope you can comfort and help your friends and neighbors to accept and appreciate the situation that has been imposed on us all.

Questions? Comments?

I will post this on [www.BWHOA.org](http://www.BWHOA.org) this afternoon.
