

Esprit Pool Rules Reminder – COVID

August 20, 2020

This is a friendly reminder that temporary COVID rules are still in place for the use of the pools and spas. The rules were posted at the pools in May.

Unfortunately, we are having difficulty getting 100% compliance with these rules. We have many owners that would like to use the pools, but are unable to do so because of health concerns related to others not following the guidelines posted.

If we are unable to get 100% compliance within the next two weeks the board will instruct management to close the pools and stack and lock all pool furniture until all COVID restrictions are lifted by the County of Riverside/City of Palm Springs and we move to the final phase of openings.

COVID Rules Summary

- Outside guests are not allowed at this time – no pool parties
- Always practice social distancing – 6 feet or more in the pool and in the pool area
- Face coverings are required when not in the pool
- Spas remain closed – difficult to maintain social distancing
- Flotation devices – except for pool noodles – are not allowed at this time
- Please be mindful of others that would like to use the pool and limit pool time to 30 minutes

Use of pools/pool area is at your own risk and you should always sanitize surfaces before touching.

If you have any symptoms or have been diagnosed with COVID, please do not enter pool areas and wear a mask/social distance when in common areas.

Thank you for your assistance in keeping the pools open and have a good summer!
