Per Officer Capers: We have seen a rapid increase in wheel/tire thefts throughout the city in recent months. The surrounding cities report the same increase. We are working together, identifying some people involved in this ring, and will continue the investigation. I am bringing it to the attention of my crime watch groups and apartment managers so you can remind people to be aware of this and be watchful. The thefts typically:

- happen Sunday night through Wednesday night.
- involve targeting pickup trucks and SUVs like Tahoes and Expeditions with after-market wheels.
- involve a suspect vehicle like an SUV or minivan to conceal transporting tires.
- Involve an organized crew that can jack up the vehicle, remove four tires and leave the vehicle on blocks in a very short time.

From Officer Capers on 1/25/12: “Just a note to tell you that I have been very aware of the increase in car burglaries in Camelot and neighborhoods south of there down to Beltline. I’ve had ideas on who it was (some of the kids I arrested three years ago in Camelot for the same thing). Last Friday, NPO Officers Rumatz, Galloway and I searched several of the suspects’ bedrooms and located several shoeboxes of GPS’s, phones, cameras, gun clips, etc. We spent considerable time going through the property and trying to match it up with reports, sometimes contacting people who did not know that their property had been stolen. I have identified three teenagers who are responsible for a lot of the car burglaries in the listed areas for the last several months. I took one to jail today and hopefully will be taking another one soon. We have located owners for most of the property. However, I still have some leftovers and will be still be working on that (possibly some Richardson offenses). These guys admitted to committing offenses on foot in a pretty wide area. I also have a warrant in hand for another guy who lives in Richardson, who is apparently coming over and doing car burglaries in Camelot. Hopefully after the dust settles, the reports will decrease. It has already been pretty quiet since last Friday when we turned those kids’ rooms upside down and they knew we were on to them.”

A note from Officer Capers:

I have been following up on any possible leads this week in reference to the ongoing car burglaries around Collins/Jester area. This morning I got an e-mail from my counterparts in Richardson PD about two subjects (white male/female) they contacted walking in alleys nearby in their city. Those two live temporarily w/ family on Christie Lane.

I took NPO Officer Duncan with me, and we contacted the residents at that house. After being allowed in, we observed enough evidence of various criminal activities that we got a search warrant for the house. During the search, we have recovered property from several car burglaries, as well as bags of mail from six cities and many licenses, credit cards, checkbooks, W2s, etc.

People who have already made car burglary reports don't need to call us, making sure we know to look for their property. We have all the reports, and are currently sifting through the stuff to match it up. I also will make a disclaimer that we may not get everyone's property back, and I firmly believe that these folks are not 100% responsible for ALL the car burglaries in Camelot. (We do have one home surveillance video of black males committing an offense.) We will also be getting in touch with the victims of mail theft/ identity theft, and US postal inspector is here with me working on that as well.

After we got the ball rolling this morning, several hard-working detectives and officers made it easier with coordinated efforts.

Thanks for all the support and info you guys provide. I'll keep you posted.

01/15 – We received the following information from NPO John Capers: "Yesterday, there were several home burglaries committed in the north Garland area: Phillips (*in Camelot*), Stonecastle, Bent Bow, Meadowridge (attempt), and maybe others. On the Meadowridge one, the homeowner gave a description of the suspects and vehicle. An undercover detective saw it on Shiloh, followed it to south Dallas, and two guys were arrested with a car full of property that appears to match up with the above offenses. It is still being sorted out, but great job to the detective who spotted them and solved some offenses."

SEPTEMBER 2008

9/04 2900 Blk Big Ben Lane – Burglary Habitation

During the last several weeks, a rash of vehicle burglaries have occurred in Camelot and the police patrol district in which Camelot is included. Neighborhood Police Officer John Capers provided the following information regarding two burglaries in a September 9 e-mail: "There were a couple car burglaries in Camelot last night. One complainant might have seen the suspect vehicle at 4:00 a.m. and described it as follows: 'A small white vehicle similar to a small Lexus was observed exiting the alley without its headlights on. The vehicle traveled for a short distance down the road. Then the headlights were turned on. The vehicle was occupied by four black males.' Obviously this is too generic a description for people to call police if they just see a white car driving down the road, but if someone saw something or got a license plate last night, or if you see this type vehicle cruising alleys, you might not dismiss it so quickly." A similar incident occurred in Oakridge a few weeks ago. During one night/morning, several vehicles were burglarized. At least some of the burglaries occurred within the 4:00 a.m. time frame. Officer Capers said such burglaries frequently involve GPSs left on dashboards at night.

9/24 Today we received the following communication from NPO John Capers:

"Due to an increase in home burglaries on my side of town, I asked some other NPOs to assist me yesterday by saturating the area looking for burglars. You may have seen us, about 10 squads.

"I am happy to say that at around 11:45am, one of our guys stopped a gold Dodge Stratus in the alley of Emerson Drive. After all was said and done, those 3 guys went to jail and property was returned to some homeowners. Throughout the day, more home burglaries were discovered, most or all of which was a result of these individuals we arrested. While we were cleaning up that mess, 3 more individuals showed up at the house of one of our suspects, and they were detained. They too were arrested after we located some stolen property in their car.

"All in all, 6 were arrested in this burglary ring, and I believe they are responsible for a lot of the burglaries on the north side of town. I'm very proud of my coworkers and detectives who spent all day on this. We are working some more on it today..."
