

No more "Charlie Brown" trees!

Dear Michael,

The Delaware Center for Horticulture recently applied for a \$20,000 grant from Tom's of Maine to plant trees in Wilmington.

Out of 2,000 proposals nationwide, we made the top 50. Our request is posted on Tom's website. But we need your vote!

You can cast five votes every day, for any of the 50 projects listed. However, you can only cast one vote per day for DCH's project "No More "Charlie Brown" Trees!" Voting ends October 30th. The five projects with the most votes will be awarded \$20,000 each.

It's very simple. There is no need to register with Tom's of Maine or to provide your email address. Just click on the link below. Scroll down, find our project entitled "No More "Charlie Brown" Trees!" and click on "Vote for This". That's it!

Thanks for your help and tell your friends!

Joe Matassino
Director of Development
