

Hello, neighbors.

It has come to trustees' attention that vehicles have been ridden on subdivision common ground. As a reminder, or as information to our many new Stonewater residents, motor vehicles are prohibited on these areas, including the walking trail around the lake. Signs are posted at both trail entrances off Water's Edge Way. Please observe this prohibition.

Also, vehicles cannot be on common ground, including cul-de-sacs, roundabouts and along ponds. Only vehicles authorized by trustees and property developers are allowed on common ground. At present, covenants and restrictions specify all terrain vehicles. Trustees also advise this extends to motorcycles, minibikes, scooters and lawnmowers. Covenants and restrictions will be amended to include all motor vehicles.
